Bachelor of Science in Public Health Environmental Health Science
Minor - Applied Sciences in Engineering

Chapel Hill, NC
May 2025

Experience

Environmental Protection Agency Lenexa, KS *Water Engineering Student Trainee*

June 2024 – Present

- Demonstrate excellent multi-tasking abilities in a fast-paced, government-focused setting.
- Collaborated with the Underground Injection Control team to map over 6,000 wells across 4 states using GIS software
- Utilized Microsoft Excel and ArcGIS Pro to manage and map concentrations of nitrate across the Region 7 area.

Marbles Kids Museum Raleigh, NC *Sustainability Intern*

Feb 2024 – May 2024

- Designed and implemented 7 interactive workshops and presentations tailored for various age groups, fostering a passion for science and learning in an engaging and accessible manner under Family STEM Club.
- Established and maintained a safe and healthy environment for children in all program areas.
- Integrated learning objectives and Marbles Play Right Structure into assigned programs to ensure holistic development.
- Directed and executed community engagement initiatives, including clean-up drives and recycling campaigns, promoting environmental conservation.

ThreadsByMalak Winterville, NC *Operations Manager*

Apr 2020 – Present

- Managed inventory levels, minimized excess stock, reduced storage costs and implemented quality control measures to ensure consistent product quality and customer satisfaction for over 600 customers.
- Trained and supervised a small team of 6 people to meet production targets and uphold quality standards.
- Supervised multiple pop-up events on college campuses across North Carolina.

Projects

- **The Nimbus-Net 3000:** A product designed to collect rainwater for irrigation systems in areas affected by extreme weather conditions that are associated with global warming. This project also includes a simple LCA from cradle-to-gate.
- **MSC Iftar Night - Minority Student Caucus Historian** *Mar 2024, Chapel Hill, NC*
 - Organized a large-scale dinner event for over 300 students, in collaboration with multiple organizations to secure resources and support.
 - Coordinated with local restaurants to manage catering logistics, ensuring seamless integration of their services with the event's needs.
 - Oversaw logistics and coordination, delivering the event at no cost to attendees while meeting all requirements.
- **SustainabiliDAY - Marbles Kids Museum** *Feb 2024 - Apr 2024*
 - Spearheaded educational workshops and activities to raise awareness among Raleigh, NC youth on sustainable practices and career opportunities in the environmental sector.
 - Coordinated between stakeholders such as NCState Engineering College, Hitachi, etc. with volunteers to ensure communication for a successful event.
 - Oversaw all logistical aspects, such as venue arrangements, materials procurement, and scheduling.
- **MAS ICNA Pop-up - ThreadsbyMalak** *Dec 2023, Chicago, IL*
 - Managed all logistical aspects including layout design and decoration, inventory management, and vendor coordination to ensure a seamless setup and operation for a 3-day long event.
 - Organized and managed a team of 6 members, overseeing transportation and housing arrangements for their relocation from North Carolina to Chicago, IL, ensuring seamless execution and accommodation for all participants.
 - Monitored and controlled the budget, tracking expenses and optimizing resource allocation to maximize profitability while maintaining cost efficiency.
 - Interacted with over 2,000 customers, providing personalized service, addressing inquiries, and gathering feedback to enhance the overall customer experience and drive sales.
